Dario Alliata received his MD in Physics from the University of Milan (Italy) and PhD in Physical Chemistry from the University of Berne (Switzerland).

He covered several positions in Public Research centres as Surface Science Scientist and moved to Semiconductor Industry in early 2000 as Applications Scientist for Inspection & Metrology. He joined Unity-Semiconductors as Product Manager in 2016 and is now Director of Business Unit, and member of the editorial board of “Modern Electronic Technology” journal.
