PSG

Cumbersome

Need sleep clinician supervision

Large infrastructure

High Cost
Sleep centers

**CHALLENGES**

1. High cost for setting up and running a sleep lab
2. Price pressure from payors and reimbursement
3. Lower quality care for the patient due to the current technologies
Over a decade of R&D leveraged for Sleep Diagnostics

BUILDING ON UNIQUE TECHNOLOGY AND EXPERTISE
ONERA VISION

We dream of a day when sleep disorders are easily diagnosed. Clinics aren’t overcrowded with people desperate for answers. And doctors spend quality time helping their sleep deprived patients.
