DISORDER IN USA

60%

Have a **CHRONIC
CONDITION**

DEPRESSION

STROKE

HEART FAILURE

OBESITY

HYPERTENSION

A person is sitting on a couch, wearing a dark shirt and blue jeans. They are holding a smartphone in their right hand and eating a snack with their left hand. In front of them is a glass bowl of potato chips and a plate of muffins and cookies. The background is a light-colored wall.

OUR LIFESTYLE IMPACTS OUR SLEEP

Stressful jobs

Busy schedules

Unhealthy eating habits

Lack of exercise

EXISTING MEDICAL
sleep diagnostic devices

EXISTING CONSUMER
sleep trackers

POLYSOMNOGRAPHY

PSG

Cumbersome

**Need sleep clinician
supervision**

Large infrastructure

High Cost

Sleep centers **CHALLENGES**

1. **High cost for setting up and running a sleep lab**
2. **Price pressure from payors and reimbursement**
3. **Lower quality care for the patient due to the current technologies**

BUILDING ON UNIQUE TECHNOLOGY AND EXPERTISE

Over a decade of R&D leveraged for Sleep Diagnostics

ONERA VISION

We dream of a day when sleep disorders are easily diagnosed. Clinics aren't overcrowded with people desperate for answers. And doctors spend quality time helping their sleep deprived patients.
