From the Director's Desk

James Amano, Senior Director

SEMI Standards and Smart Manufacturing

While the concept of smart manufacturing is receiving increased attention in recent times, the SEMI Standards Program has for many years been developing the fundamental standards that enable today's highly adaptive, self-diagnosing, and interoperable fabs. [Read More](#)

Building Information Modeling

The Building Information Modeling (BIM) for Semiconductor Capital Equipment Task Force, part of the North America (NA) Facilities Technical Committee Chapter, was formed to gather input from equipment suppliers to create a common format for BIM software. [Read More](#)

Joint Task Force Explores IC and MEMS Manufacturing Challenges

For the past year, SEMI, working jointly with the MEMS & Sensors Industry Group (MSIG), has facilitated a joint task force that has been exploring industry challenges that span both semiconductor and MEMS/sensors manufacturing. [Read More](#)

China HB-LED Standards TC Chapter Spring Meeting in Xuzhou

The SEMI China HB-LED Standards TC Chapter meeting was held in Xuzhou, Jiangsu on April 21st, 2016. [Read More](#)
