

# The European Chips Skills Academy

Victoria Cummings, Senior Manager, Workforce  
Development and Skills, Semi Europe

November 15, 2023

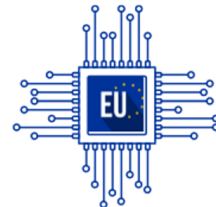

# Overview: European Chips Skills Academy

**Objective:** create an **Alliance between educational systems (VET and HE) and the microelectronics industry** to support the growth and innovation of the European microelectronics ecosystem. This Alliance will include formal mechanisms and fora for implementing the European Chips Skills Academy in line with the Pact for Skills. A **decentralized Academy will be established to meet the growing demands for skills** and competences in the fast-evolving microelectronics labor market.

## At a glance:

- **Funding:** 4 M €
- **Duration:** 4 years -> Oct. 2023 to Sep. 2027
- Focus on untapped growth through skilled workforce.
- Develop physical and virtual programs and curricula to reach a wide range of learners – EQF 3 to 8.
- Quantify the **skills gap** to better understand the current and upcoming needs of the sector.
- Build an enduring network between education and industry.
- 18 Consortium Members + Associate Partners
