

European Energy Manager EUREM Training Programme

Taipei, 2022

財團法人 中衛發展中心
CORPORATE SYNERGY DEVELOPMENT CENTER

Corporate Energy Management is important!

External Reasons:

 **Cost pressure**

 **Renewable Energy**

 **Sustainability & Decarbonization**

Internal Obstacles:

 **Focus on procurement costs** while ignoring maintenance and energy costs

 **Structure:** Lack of manpower, responsibilities or monitoring standards

 **Improper Maintenance or System Override**

The European Energy Manager

Our Solution:

Together with our national and international partners we are now launching the **EUREM European Energy Manager** in Taiwan!

- Coverage of all major technologies
- Management aspects for precise calculations
- Long-term network
- Extra-Occupational online Training
- Comprehensive Energy Concept for savings during the training

財團法人 中衛發展中心
CORPORATE SYNERGY DEVELOPMENT CENTER

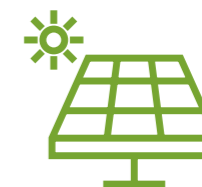

The professional training saves companies on average of about **950 MWh** and **550t CO₂*** per year and combines aspects of:

Management

Engineering

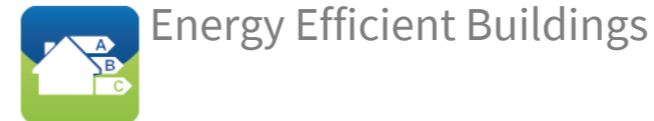

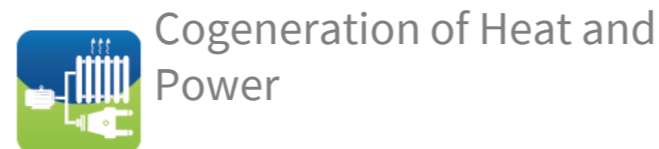

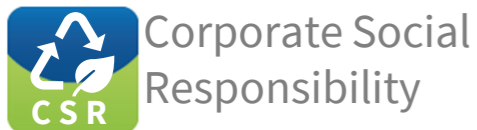

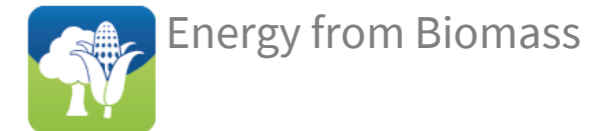

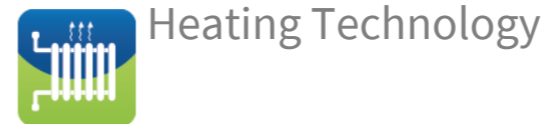

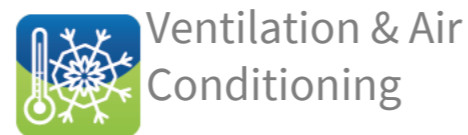

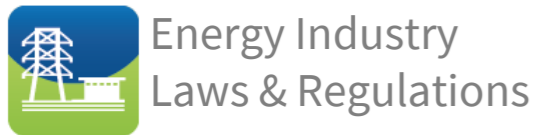

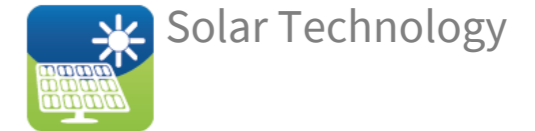

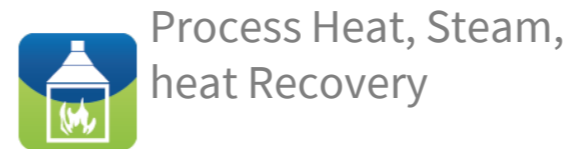

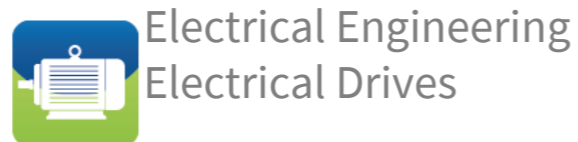

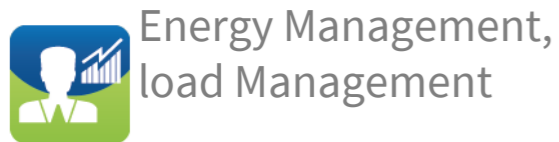

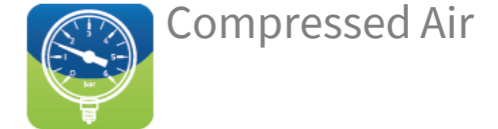

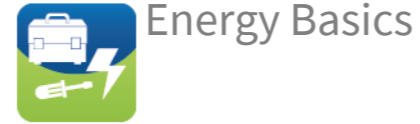

Renewables
