STRONGER TOGETHER

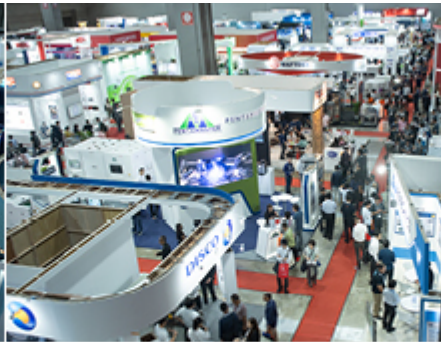

We are delighted to invite you to join us in celebrating the 30th anniversary of SEMICON Southeast Asia. On May 20-22, 2025, the show returns to Singapore, the location of the inaugural event, to commemorate this special occasion. This year's theme, *'Stronger Together'*, underscores the critical need for collaboration amidst a rapidly changing landscape characterized by economic volatility, regulatory shifts, and geopolitical complexities. SEMICON Southeast Asia is the region's premier platform that fosters collaboration and innovation across the semiconductor and electronics design to manufacturing supply chain.

The show gathers key industry stakeholders from the global semiconductor industry, and is expected to attract more than 20,000 attendees from 65 countries/regions over three days. It will feature over 600 international and local companies and more than 1,300 exhibition booths. The show will spotlight Singapore and the region's crucial role as an international hub for semiconductor technology innovation, development, and manufacturing.

Building on 2024's successful event in Kuala Lumpur, which attracted nearly 19,000 visitors from 62 countries and featured 150 international speakers delivering over 80 hours of programme, SEMICON Southeast Asia 2025 is anticipated to be even more impactful. We hope to see you there!
