

BIOGRAPHY

SMC Korea 2025

Name: Yohan Ahn

Title/Position: Senior Director/Head of Market and Technical Solutions

Company: Entegris Inc.

Yohan Ahn has been working in the field of Contamination Control Technology in the Semiconductor industry for over 30 years at Samsung and Entegris. He is currently leading the Global MTS (Market and Technical Solutions) organization at Entegris, where he oversees contamination control tasks within the ecosystem of semiconductor manufacturing processes and materials. Specifically, he focuses on the impurities in liquid chemicals and the resulting process contamination, as well as filtration/purification tasks to control these issues.

Yohan received his bachelor's degree in Electronic Materials Engineering from Kwangwoon University.
