

## BIOGRAPHY

SMC Korea 2026

**Kuntack Lee**  
**VP of Technology (Master)**  
**Samsung Electronics**

“Kuntack Lee earned a Bachelor of Science in Chemistry from Seoul National University and a Master of Science and Ph.D. in Physical Chemistry from Pohang University of Science and Technology.”

“In 1996, he began his career at Samsung as a member of the cleaning process development team. His research focused on various cleaning processes, including drying, selective removal, surface modification, dry cleaning, and electroplating, and others.”

“From 2003 to 2005, he participated in the Imec Industrial Affiliation Program. Since 2010, he has been a committee member of the UCPSS, a prestigious international symposium. In 2013, he received the Samsung Award of Honor for his work on drying equipment. In 2014, he was recognized as a Master of Samsung in the field of next-generation process development.”

“He holds over 80 U.S. patents and has published 20 papers cited by Google Scholar. More recently, he has been involved in developing cleaning processes for logic devices.”
